

Brand New

FoxCloud 2.0

- ✓ 5s Data Flow
- ✓ Multiple Work Modes
- ✓ AI Mode
- ✓ Dynamic Tariff
- ✓ VPP Controlled
- ✓ Guided Commissioning

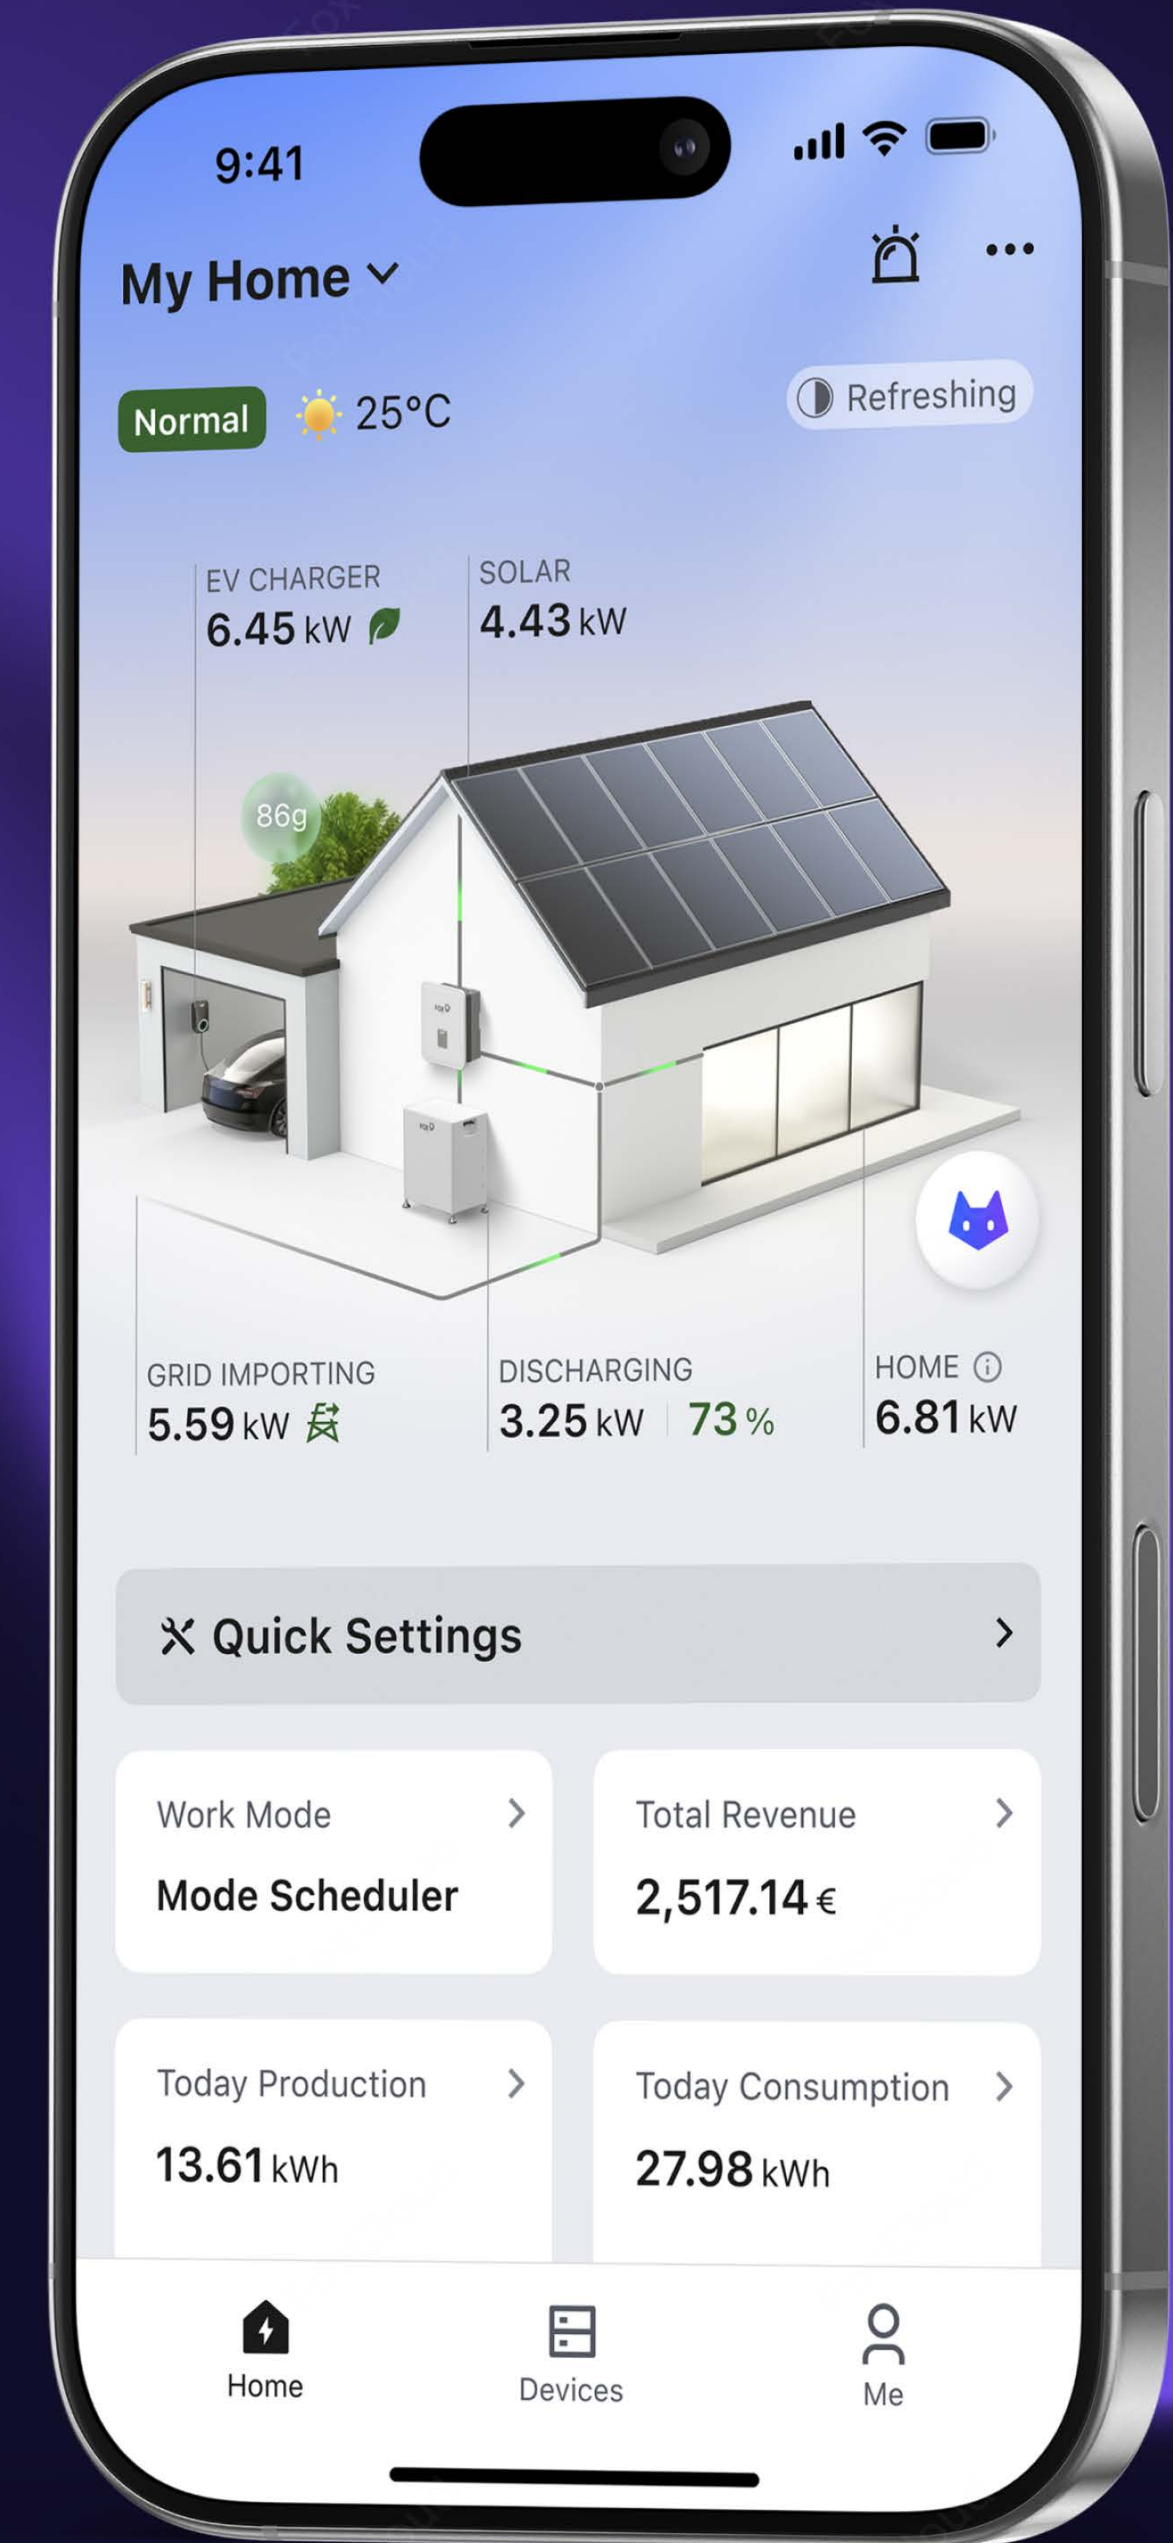

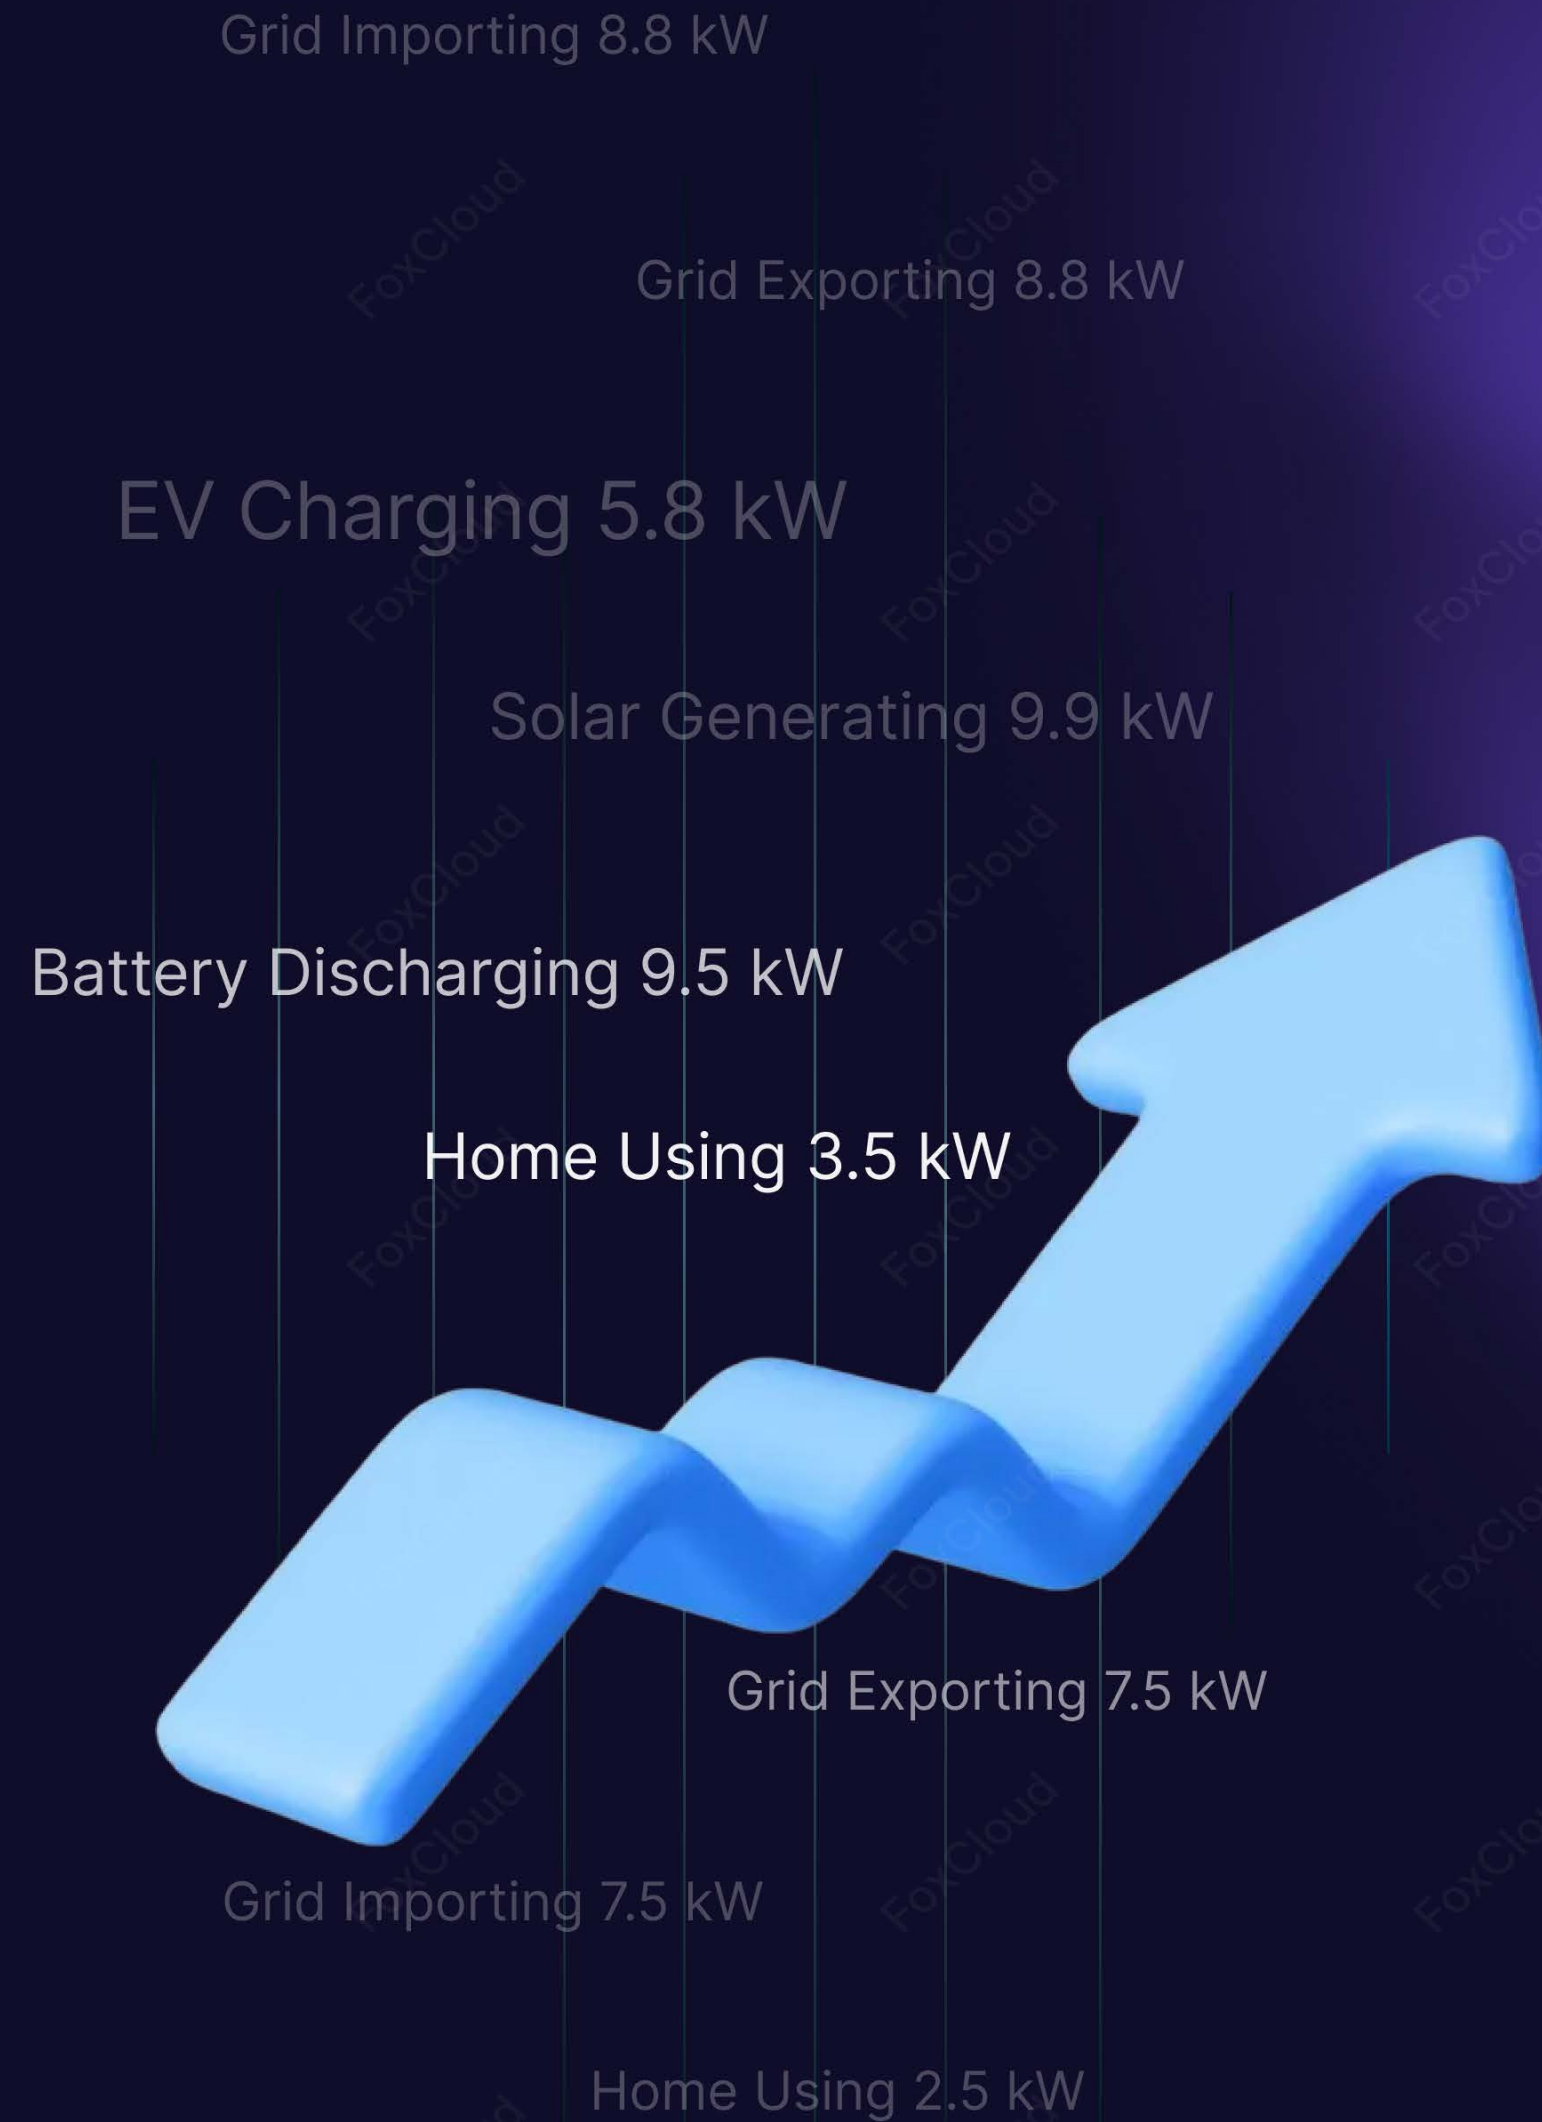

The 'Welcome to the AI Mode' screen features a tariff graph at the bottom showing electricity prices in €/kWh over a 24-hour period. The graph shows a peak price of approximately 0.35 €/kWh during the day and a lower price of about 0.15 €/kWh at night.

*See Appendix for supported models and regions in detail.

Speed Up, 60x Faster

5s data flow, with brand new UI.
Power up the monitoring experience.

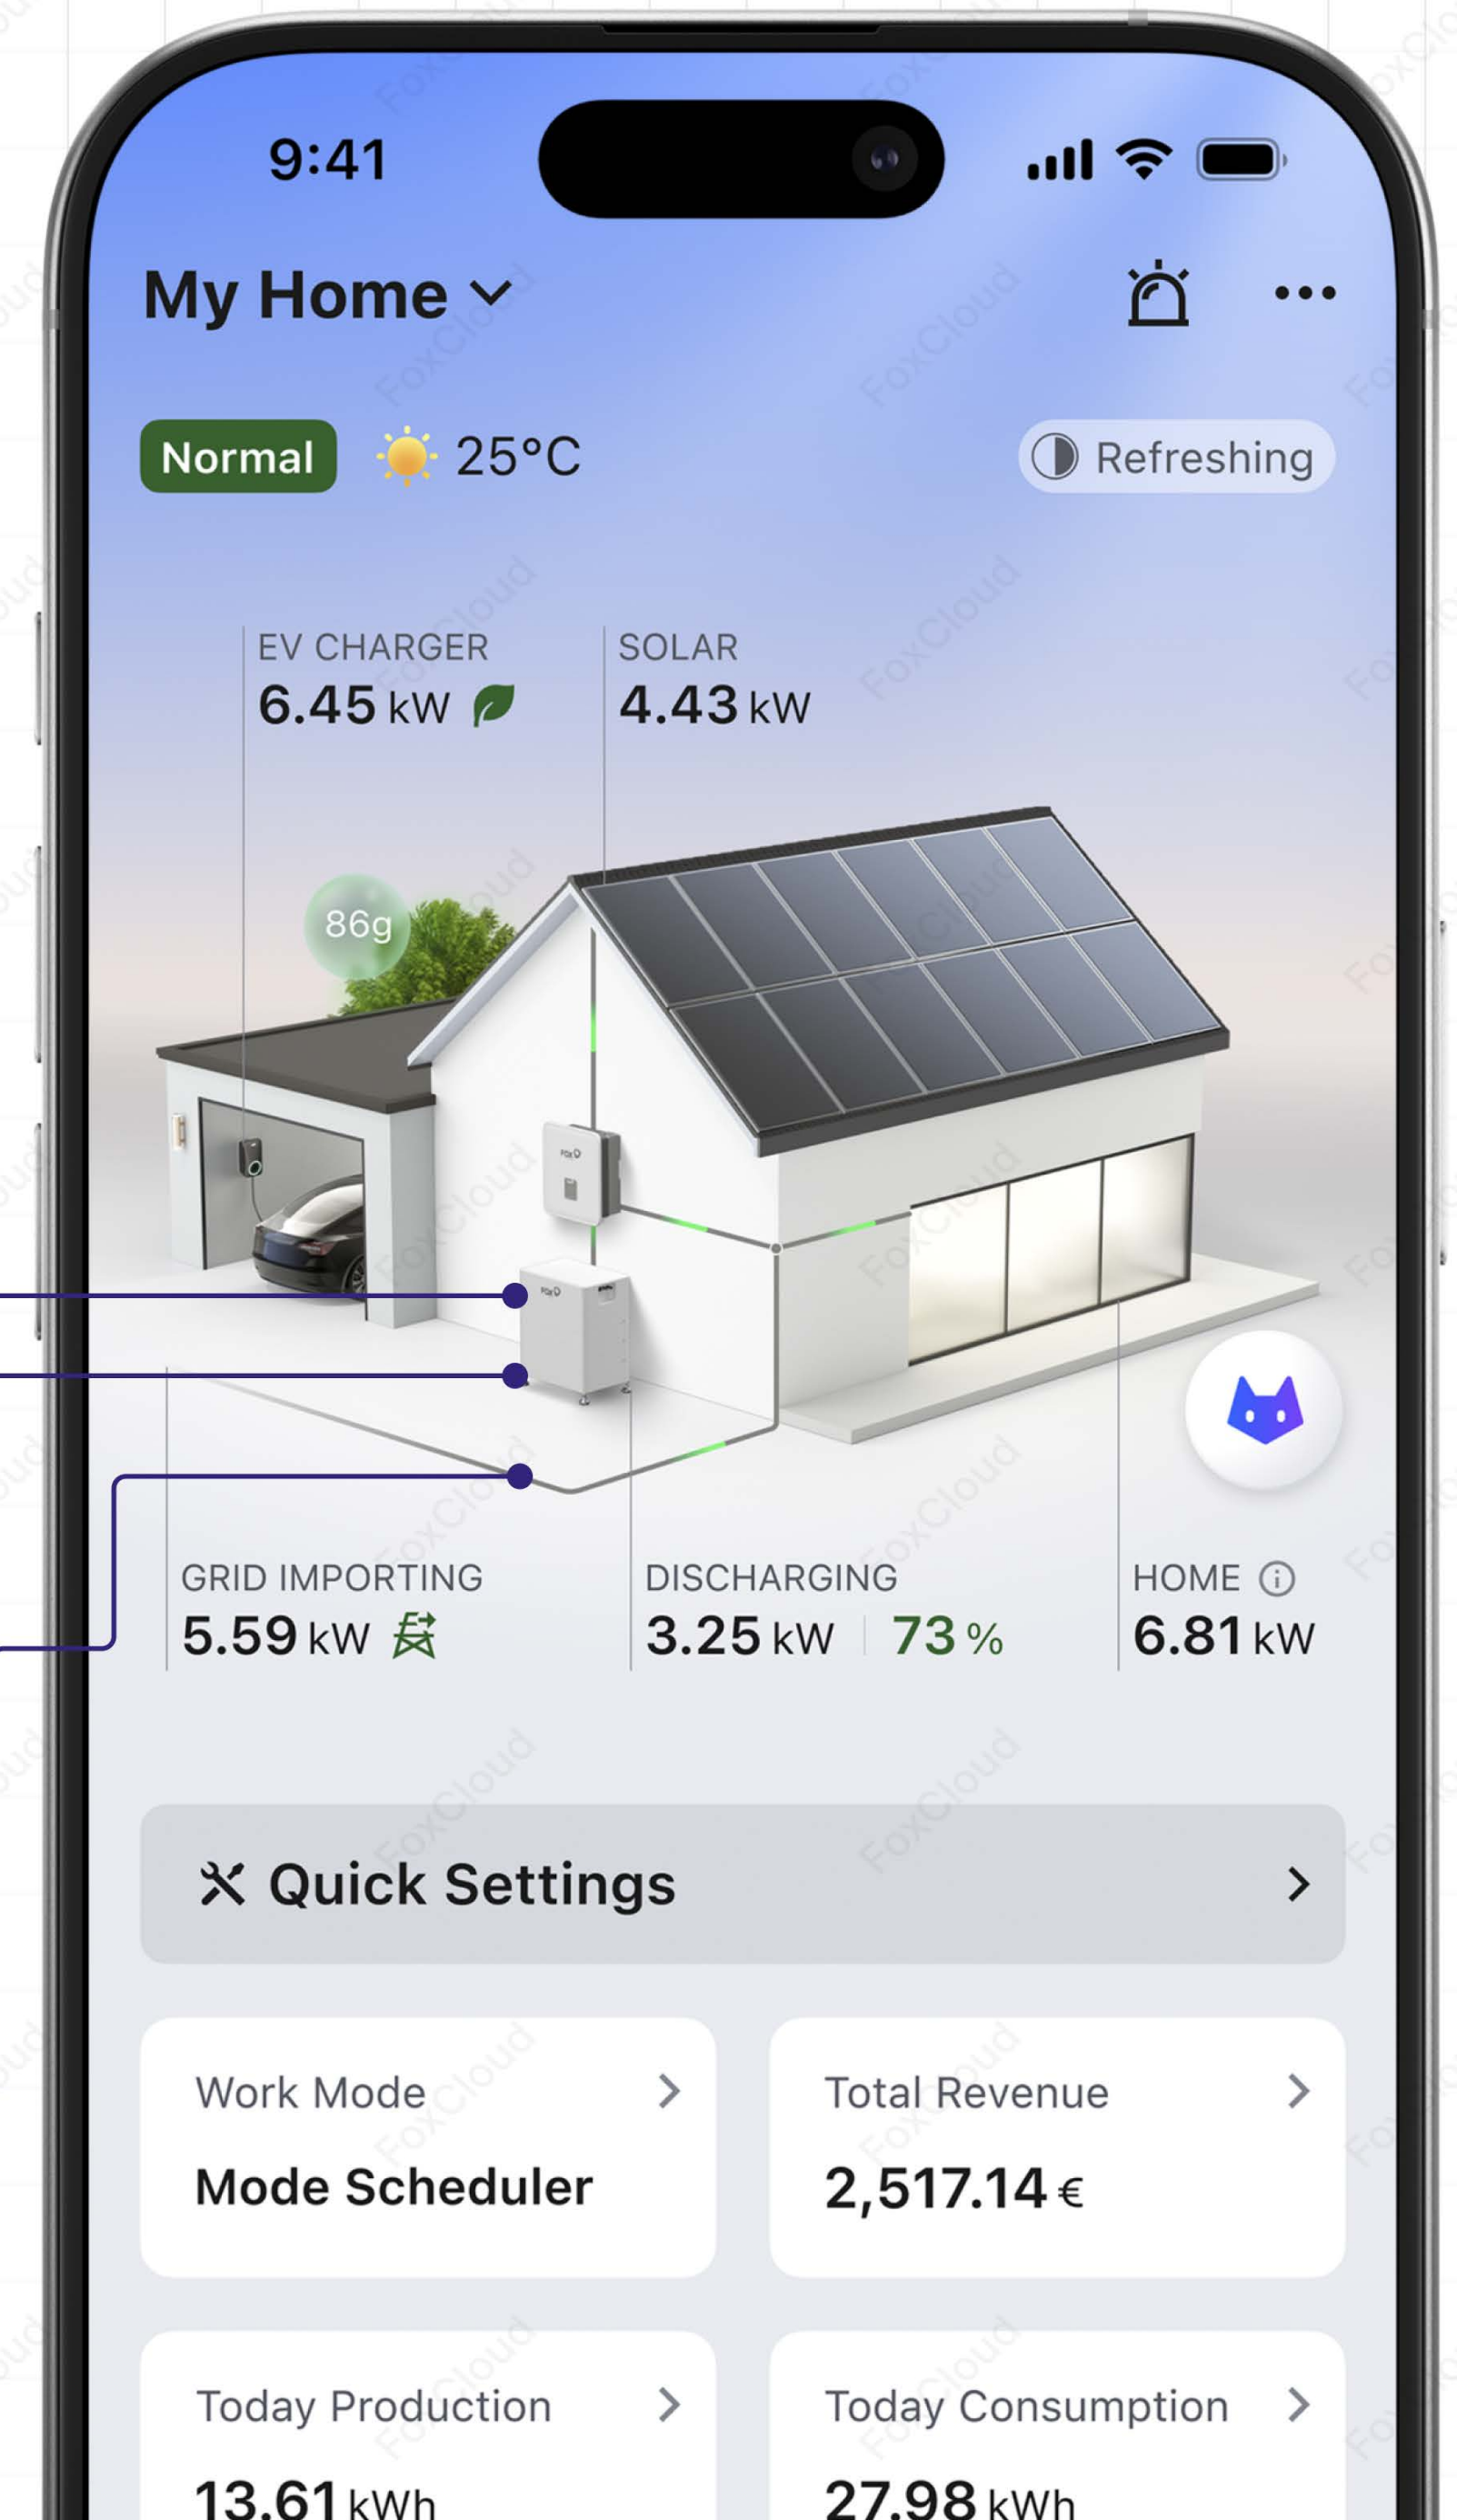

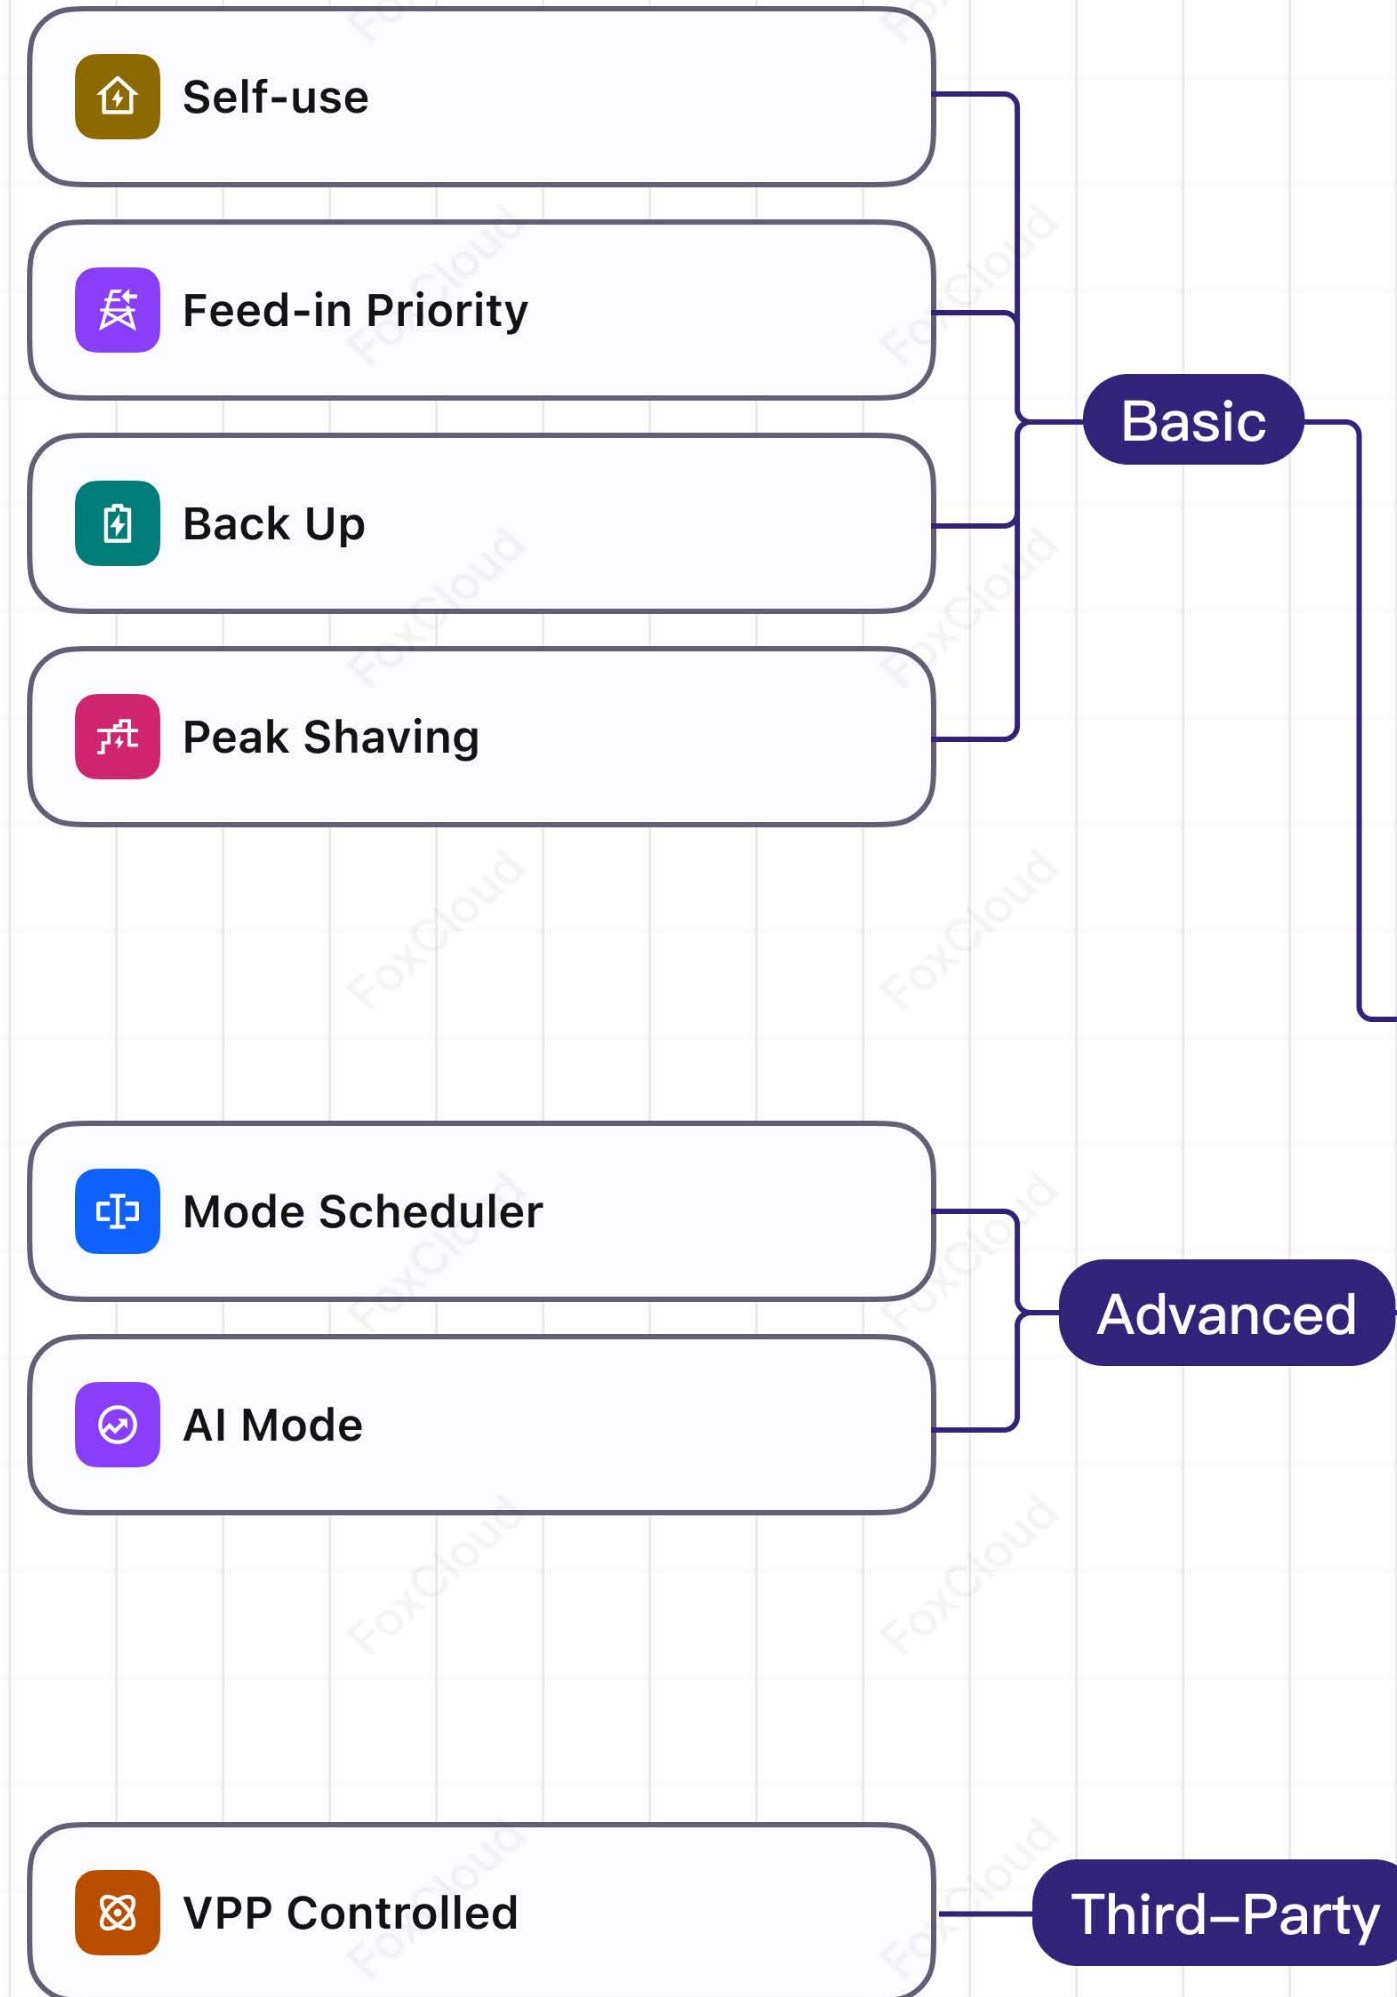

*See Appendix for supported models and regions in detail.

Flexible work modes for every need

Adapt your system to your lifestyle. Use **Self-Use** for seamless daily savings, or unlock advanced **AI Mode** and **Mode Scheduler** to optimize performance and turn your energy storage into a profit-generating asset.

- ✓ 7+ work modes designed to meet the energy demands of residential, commercial applications
- ✓ Up to 96 time slots for scheduling setting
- ✓ Full compatibility across the entire FoxESS product range

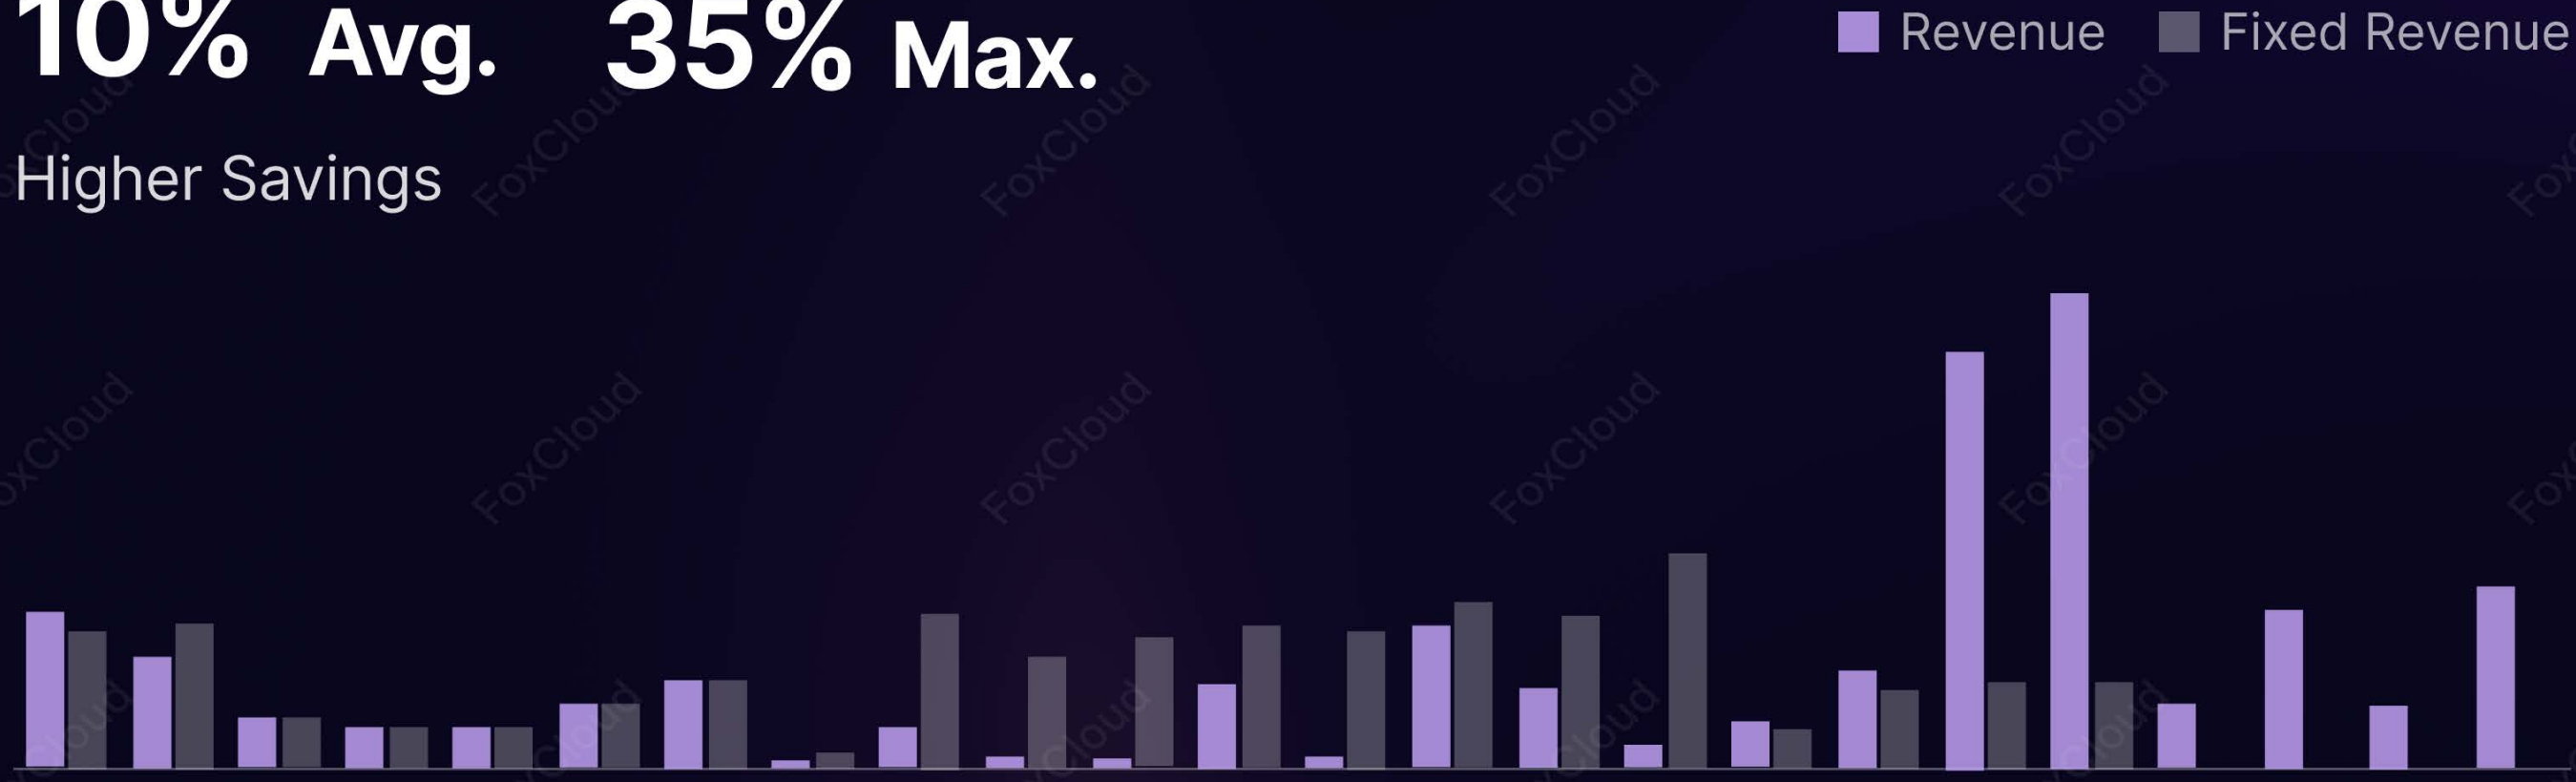

*See Appendix for supported models and regions in detail.
